Anti-Cellulite Massage Oil

Product Analysis

Our proprietary "D-Limonene" formula is designed to support weight management and body care through the natural benefits of lemon and grapefruit oils, both rich in d-limonene. This compound plays a role in releasing fatty acids into the bloodstream, where they can be broken down and used for energy. Research suggests that d-limonene may help regulate body weight by reducing lipid peroxidation and lowering cholesterol, while also supporting detoxification and circulation.

This synergistic blend combines **metabolism stimulation**, **lymphatic system detox**, and **skin-smoothing properties**, making it ideal for invigorating massage and self-care rituals.

Ingredient Super Stars

Grapeseed Oil

- Lightweight, regenerating oil that deeply moisturizes without heaviness.
- Supports skin toning and tightening, making it ideal for areas prone to cellulite.

Eucalyptus Oil

- Targets subcutaneous fat deposits with invigorating, circulation-boosting effects.
- Provides anti-inflammatory benefits to soothe the skin and ease discomfort.

Lemon Oil (Citrus limon)

- Stimulates microcirculation and strengthens vascular tissues.
- Helps relieve pressure on veins and supports overall skin vitality.

Grapefruit Oil

- Acts as a natural lymphatic tonic and mild diuretic.
- Helps diminish the appearance of cellulite and supports fluid balance.

Ingredients List: Grapeseed Oil, Eucalyptus oil, Lemon Oil, and Grapefruit oil

Technical Data

Appearance: Clear bright pale yellow oily liquid
Odor: Fresh Eucalyptus scent
Density: 0.922g/cm3 (22℃)
Refractive Index: 1.4756

PH Value: 5.0-7.0

Recommended Usage

Apply the massage oil on damp skin after taking a shower or bath as this will lock in the moisture. Oil applied to dry skin will coat the skin, but will not penetrate. Massage the oil into skin until it is absorbed.

Notes: The proper use of our massage oil will help diminish the appearance of cellulite. When you prepare labels, please do not put the massage oil will reduce the cellulite. If then, it could be treated as a drug. You may simply say that it will diminish the "appearance of" cellulite.
