

The Slimy Book

<https://www.youtube.com/watch?v=MmGcyCrGzjU>

“I can listen to the story.”

“I can write letters on my slime”

What does slime feel like? How did the book tell us that slime feels? What do you know that is slimy? Did you notice anything else in the story? Tell me more.

Steps to Make Slime

1) Pour one cup of glue into a big bowl.

2) Add a few drops of food coloring.

3) Add one tablespoon of baking soda and stir it in.

4) (Add your texture here!)

a) For foamy slime add shaving cream

5) Mix and let it sit for a few seconds.

6) Last add some contact solution till you get the desired

texture.

Once done, place slime in a ziplock bag and seal. Use a q-tip or finger to imprint letters of name and other family memeber's names.
