How to Retrieve Your Principal ID

Your Principal ID (or identity principal) is your main unique identifier on the Internet Computer (IC). This is the hash ORIGYN needs in order to send you your OGY Tokens. They will look similar to this:
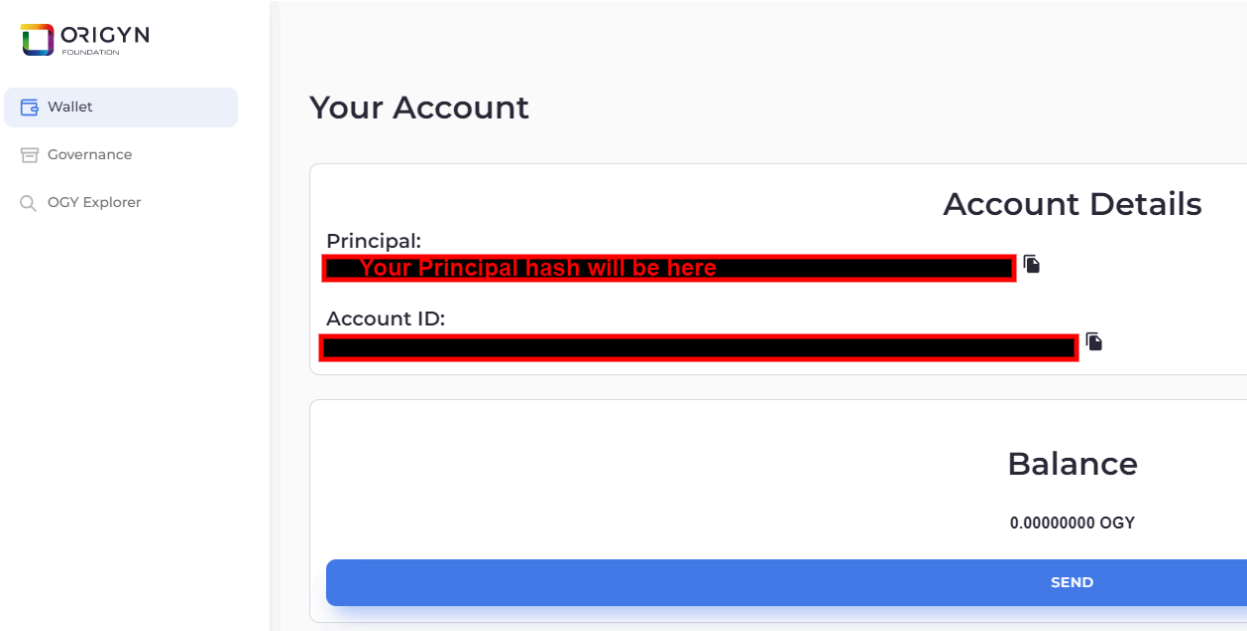

55vo5-ubrtj-k5pze-e3gmi-5u5cq-i5gte-54n5s-dfo5h-ehrrm-erpra-zez

To retrieve your Principal ID, you must first create your [Internet Identity (click here for instructions)](#).

Once you have done so, go to:

https://governance.origyn.network

Log in with your Internet Identity, then click Wallet on the left hand menu. You will see your Principal ID on the next screen:

Click the icon to the right of your Principal ID to copy it and paste it into the required dialogue box (ie. on an ORIGYN Gleam giveaway, etc).
