Prize for winning:

Rules:

1. Only World Records in acceptable games count
2. A World Record counts if it either beats the 1st place run in speedrun.com, or specifically stated in the rules what the actual World Records are just not verified on speedrun.com such as in Rule 10, Rule 11 and Rule 12. If you think there is a faster run unverified on speedrun.com, send it to me and I will verify if it should count as the real World Record or not
3. When you get a World Record, you get 1 point
4. A World Record must be a new best time. Tying the current World Record does not count
5. When you get a World Record, it must count, following the speedrun.com rules, and you must send me the video so I can count it to your number of points (the run does not have to get verified)
6. If someone beats your World Record that you got during the competition, you lose 1 point, and that person gains 1 point
7. If someone not in the competition beats your World Record, you will not lose a point, but if someone else tries to take your point, they will have to beat the new World Record.
8. If your run is fake and you are caught cheating, you are automatically disqualified from the competition
9. Your run can be either streamed live, or recorded locally. If you record your run offline, you must have your attempt session(s) ready if I ask for them\*. If I ask you to highlight a stream, you must highlight it for verification purposes

\*If it takes you less than 10 attempts to whip out a world record, then you should have your practice session recorded as well.\*

10. Runs must have in-game audio, and if you have a mic turned on that would be even better
