

UNITING AND EMPOWERING INDEPENDENT FESTIVALS

As an AIF member participating in this campaign, we the undersigned recognise the devastating impacts that the prolific use of single-use plastics is causing in the environment on a global scale.

We also recognise the leadership role that festivals and events/the festival community can play in inspiring and driving forward positive, solutions-focused change towards a sustainable future.

We pledge to eliminate single-use plastics (e.g bottles and straws) at our event(s) within 3 years by 2021, and to promote reuse solutions wherever practically possible.
