Product Description

A guided year of saying YES to yourself — one intention, one moment, one season at a time.

The *Intuitive Life Planner* is not a traditional planner.

It's a sacred companion for your year — a gentle, spacious, soul-led tool designed to help you live in deep alignment with your intuition, your values, and your YES.

Rooted in the philosophies of *Say Yes to Your YES*, this planner supports you in moving through your days, weeks, months, and seasons with intention, clarity, and ease. Instead of pushing, forcing, or hustling, this planner teaches you how to create your life from the inside out — using intuitive listening, meaningful reflection, micro-adjustments, and aligned action.

It's part journal, part roadmap, part conversation with your highest self.

And it's here to help you remember who you are and where you're going — every single day.

HOW TO USE YOUR INTUITIVE LIFE PLANNER

This planner is built to be used gently, intuitively, and creatively. There is no “perfect” way to use it.

Instead, you'll move through:

✨ Daily Check-Ins

A simple, powerful practice of tuning into your energy, anchoring into your priorities, and choosing the YES that matters most today.

✨ End-of-Week Reset

A nurturing transition into the weekend where you pause, reflect, and choose how you want to nourish yourself over Saturday and Sunday.

✨ Weekly Reflections

A guided moment to check your alignment, celebrate your wins, and clear out stuck energy so you can begin your next week with intention.

✨ Monthly Reflections

A deeper dive into your growth, clarity, lessons, and aligned next steps — including your **monthly YES Map**.

✨ Seasonal Realignment (Quarterly)

Because each season holds its own energy, this section helps you recalibrate and realign your life with what nature and your intuition are calling for.

✨ End-of-Year Reflection

A powerful closing ritual that helps you gather the wisdom of the past year, understand the themes that shaped you, and create clarity for your next chapter.
