

fjohnson@sjpl.lib.mo.us

Hi Robby,

Thanks for talking last week and offering to host our free 3D printer build workshop at the St. Joseph Public Library. You can find out more about our organization at:

<https://www.opensourceecology.org/>

We would like to confirm the location and time:

East Hills Library 502 N. Woodbine Road St. Joseph, MO 64506 Circulation: (816) 236-2136

Saturday Sep 15, 2018

11am - 5pm

Please find our flyer on FB which you can repost - please let us know if you need any further info or changes to the flyer.

<https://www.facebook.com/groups/398759490316633/permalink/922142874644956/>

We will bring 3 sets of 3D printer parts for building. Ideal number of participants is 12 people. We would need 3 or 4 working tables - 4x8 foot size is ideal. Are there utility tables like this available at the library or should we make other arrangements?

Please see our attached flyer, as well as our eventzilla posting for the workshop:

<https://bit.ly/2NyuSsf>.

Would you be able to print and post this flyer at your library, and please ask your social media person to repost on Facebook and other locations.

For people that register - please keep up abreast of the number of registrations for people who sign up on your signup sheet.

Looking forward to this Saturday!

Best,
Marcin
