

Hey, Scott,

I just wanted to drop you a line and let you know that I've heard a number of people give positive feedback on your AI Simplified course, and on your teaching style. You're a gifted teacher and that showed in the webinar course, and at the AI Summit in Chicago as well. We didn't get to really talk there but I just wanted to say thanks for being a part. I was glad I was there.

I have been using some of your AI tools. I FINALLY got around to using your AI 9000 tool to create my own engineering course creation GPT. We'll see how it goes.

Blessings & Regards,

Hi Scott,

I'm writing this email to express my sincere thanks and appreciation for taking the time to help me by looking at my business website [www.MagicalSpain.com](http://www.MagicalSpain.com).

Scott was able to quickly see the low hanging fruit. As such he suggested some immediate ways that are both actionable and fairly simple to leverage AI to create a more valuable way to communicate, share our results and connect with my ideal customers.

The really cool thing I'm excited about is a lot of this was just sitting right under my nose but I needed someone from outside to help me see the forest through the trees.

So if anyone out there is on the fence about working with Scott and his company to help them improve their business with AI I would say this...

it's a no-brainer and you should absolutely consider highly and get him on your side as soon as possible and don't wait as you might miss out and get on a long waiting list because he's going to be busier and busier as more and more people discover his amazing.

And in closing just to say yes I am very much a real person I am not an AI testimonial created by chatGPT...So if anyone would like to verify me in contact me here you can see my website and contact details below thanks again to Scott and best of luck everybody

Life is short, vacation memorably!

Thank you & best from Spain,

During my vacation I finally had a chance to look at the competitor analysis that you made for me. It was impressive, thank you very much! I learned things about how I am similar and different from my competitors that I was unaware of. A lot of food for thought here. Many thanks.

"I handle Google Ads for a bunch of different companies. I've always joked that my niche is that I don't have a niche. But, for a long time now, I've wanted to focus on just one type of business to get better at what I do, make my messages hit home, and find leads more easily. It's tough with so much competition out there, and I kept getting stuck on which business type to go for. Then I worked with Scott's Power Prism, and it was like flipping a switch. It cleared up all my doubts and made it super obvious which niche was right for me. It even showed me some new chances I hadn't thought of before. Now, I know exactly who I should be working with and how to reach them better. I'd tell

any business that wants to get sharper at marketing and find new chances to give Scott's service a go. It really helped me out."

Scott helped me unlock what I was missing.

Using a quick ChatGPT question session, he took my defined problem and was able to articulate the answer in a way I was not thinking.

I sent that to our programmer and our lead generation tool is 1000% more of what I wanted it to be.

Thanks Scott!

Scott makes using AI so much easier, and he also makes it fun!

Scott helped me discover data in my business with AI that can definitely help me add at least another million+ dollars per year in sales.

Scott helped me use AI to drastically improve my marketing, which will strengthen our stability and add a minimum of hundreds of thousands of dollars in sales to my business each year. He's such a great teacher and makes AI fun, I highly recommend him!
