

Hello families. I would like to clarify a few things:

On Sunday, March 22nd, Ms. Monroe sent an email to families sharing that we now have a [Mar Vista Distance Learning Website](#). You can find the weekly lesson plans of all teachers and school announcements there. Please make sure to visit it.

I will also post the same document (lesson plans) on Google Classroom. Students are familiar with Google Classroom as we have been using it all school year. **Students should check Google Classroom daily. All assignments and links are there**, in addition to a Google Calendar (under Classwork).

On the subject of Google Classroom, I am researching alternative platforms where students can ask questions, which naturally, they have a lot of these days! Please know that you can always click on Classwork, in Google Classroom, to easily see assignments, should the comments make the stream cluttered.

I am honestly learning something new just about every hour of the day. I am also experimenting and trying new things this week. Once I become more familiar and comfortable with different online resources, I will better schedule Zoom and other live events. Also, I have [posted tutorials videos on my website](#), should anyone need extra support using these new (to us) online platforms.

Thank you so much for your patience and support, families.
