

Zen of Dror¹

1. Explicit is better than implicit.
2. Directly is better than indirectly.
3. Simple is better than complex.
4. Complex is better than complicated.
5. In the face of ambiguity, refuse the temptation to guess.
6. Now is better than never and never is often better than *right* now.
7. Written is better than verbal and email is better than Slack²
8. Fail is better than not try at all
9. If it's neither quick nor urgent, a proper meeting with clear agenda and objectives is desirable
10. With a smile is better than with a cry

¹ Inspired by [Zen of Python](#)

² Especially when working remotely
