

VO	Visual
For 10 years, Motionographer has shared inspiring work, insightful interviews and industry commentary with over 11 million people from around the world.	
But we're just getting started.	
We believe Motionographer could be <i>so much more</i> .	
What's next... is up to you.	
Become a supporter on Patreon and shape the future of Motionographer.	Patreon logo?
"Um... what's Patreon?"	
Patreon is a simple way to support your favorite stuff by making a monthly donation.	Animation of user inputting dollar amount in the pledge form. (Can be stylized/simplified/illustrated.)
"How much do I have to donate?"	
As little as two bucks a month will grant you access to our Patreon community.	
"How will the money be spent?"	
All money from Patreon will go <i>back</i> into building and growing Motionographer — not our wallets. We'll hire the best talent to craft and maintain a new platform powered by the people, for the people.	
"What <i>specifically</i> do you want to build?"	
The short version:	
1. Better tools for finding, sharing and discussing amazing work — <i>and</i> the people who make it.	
2. More process breakdowns and educational content.	
3. More insightful coverage of the industry issues that matter.	
There's a huge list of things we want to build — but we also want to hear from our Patreon supporters. That's the whole point!	
"What do I get?"	

In addition to the rewards listed on our Patreon page, you'll be a member of our inner circle.	
You'll also get monthly updates from me, Justin Cone, and a voice in what we build next.	
You'll help create not just the future of Motionographer, but a vibrant community that pushes the art and business of our industry forward.	
Since day one, Motionographer has been fueled by a deep passion for design and moving images.	
If we've ever helped you or inspired you, please join us by becoming a patron now.	
Thank you!
