Privacy Policy for Teleprompti

Last updated: September 01, 2026

1. Introduction

This Privacy Policy applies to the mobile application **Teleprompti** (the "App"), published by DualPlatformDev on Google Play and by Taalaibek Kasymaliev on the Apple App Store. This page explains what information the App uses and how it is handled.

2. Information Collection and Use

Teleprompti does not collect, store, or share any personal data.

- **Camera and Microphone Data:** The app requires access to your camera and microphone to record video of you reading from the teleprompter. All video and audio processing happens locally on your device. We do not upload your recordings to any servers, and we do not store them anywhere other than on your own device.
- **Offline Functionality:** The core features of the app can function entirely offline.

3. Permissions

To provide its core functionality, the app requires:

- **Camera Access:** Used to record video while you read from the teleprompter.
- **Microphone Access:** Used to record audio while you read from the teleprompter.
- **Storage (Optional):** Only if you choose to save your recorded videos to your device.

4. Data Collection and Use

We do not require users to create an account or provide names or email addresses. However, to provide functionality and display advertisements, we use third-party services that may collect information used to identify your device or provide personalized advertising.

Third-Party Service Providers

The App uses the following services, which may collect data according to their own policies:

- Google AdMob: Used for displaying advertisements. It may collect advertising identifiers (AAID on Android and IDFA on iOS, where available), IP addresses, and technical device information to serve and measure ads. Privacy Policy: https://policies.google.com/privacy
- Google Analytics for Firebase: Used to understand how users interact with the App, such as which features are used. It may collect usage statistics and device-related identifiers. Privacy Policy: https://policies.google.com/privacy

3. Types of Data Collected

Depending on your device settings and the services enabled, third-party services may collect:

- Device information: Advertising identifiers, IP address, device model, and operating system version.

- Usage data: Information about how you interact with the App.

5. Children's Privacy

Our application does not collect any personal information from children. Since no data is collected, the app is safe for all users.

6. Changes to This Policy

We may update our Privacy Policy from time to time. Any changes will be posted on this page.
