SLN SOLsummit 2013 4th annual Unsession

<http://bit.ly/SLNUnsession>

Martha: MCC - new student orientation in angel with Erin Maney, collaboration with student services and instructional technologies to provide one space online for new student resources. Currently specific to new to the college aka freshman and transfer students. Contents currently support the material that is presented during the face to face on campus new student orientation.

Maureen: Orange librarians took new faculty training for Angel in order to embed librarians into Angel online courses and some web-optional courses as well. Successful pilot. Recommends librarians embedded in courses online and face to face.

Pam: upstate medical - librarian faculty built tutorials for undergrad and grad level research in Nursing courses. The online learning staff put links in each nursing course in blackboard at the request of the faculty.

We are looking into the use of Alignments in Bb for aligning content and assessments with program objectives. If you are interested in this conceptually, please see Pam Youngs-Maher or George Dale.

Keith: Purchase College - eportfolio shared services project with SUNY Delhi. We've connected their Moodle system to our Mahara system, so that students and faculty can single sign-on through their Moodle to access Mahara ePortfolios on our campus. Single click transfer of learning artifacts from the LMS into ePortfolios for creating portfolios. hosting eportfolios for other campuses, including Empire State. Presentations planned for CIT and STC. Let us know if your campus would like to try out ePortfolios. (Also, I'd second the comment from Maureen at Orange about embedding librarians in the online courses, we do that with our online and face to face courses as well.)

Ellen Mary: ESC FACT2 eportfolio task group - several subgroups set up to look at different aspects of ePortfolio use: At SUNY (what is the current status of ePortfolio use across the system and what needs to be done to promote use of ePortfolios to support student learning);

Hope: ulster. Nursing. medical center in SL. simulations in the clinical setting cases. Looking for partners. have an intro package to quickstart folks that want to work with them. Nursing, PT, other disciplines. To try out case studies. April 24th 1-2 webinar through the CPD. if you are interested check out the webinar and

session at upcoming CIT. SL isn't dead. :)

vicky: clinton. Created a course syllabus warehouse.

william pelz: Herkimer - online assessment community course has been upgraded. every semester every instructor evaluates every course they teach. peer review. system is working flawlessly. all program review data (every 5 years) is current and uptodate - automated process of doing program reviews.

linda unger and paul edelson dean of professional development: stony brook asynchronous programs. MA in undergraduate education program. <http://www.stonybrook.edu/sed>

martie : Erie. conference at Hamilton - mobile learning summit NYSCATE March 22, 2013. nyscate.org tie with k12. Instructional tech council offers a leadership academy hosted at Erie. July 15-17, 2013.

lisa stephens: iitg program director. deadline is 5pm tomorrow. FLEXspace (Flexible Learning Environments eXchange) project (FACT2 taskforce) repository that holds open access examples of open spaces. Detailed report (including screen shots) available on the FACT2 meeting notes: <http://wiki.sln.suny.edu/download/attachments/16221768/FLEXspace+FACT2+Update+021013.docx>

COIL - hope and keith. COIL conference.

greg : oswego COIL course.

kim: suny learning commons. update. upgrade to cuny in a box starting monday. Then upgrade of server capacity and later this semester we will start opening up to additional groups. we've also just formed a Commons Implementation Advisory Group to provide input on future decisions regarding implementation of the tool for SUNY.

Holly: plattsburg. certificate program Innovative library services through emerging technologies. with CPD.

Kim: ID certificate program, several in the pipeline.

carey: rethinking ATIS - mini shared services across ATIS units.

mark mcbride: bufstate librarian love. libraries in the 21st century. standards. k12 common core. will showcase info literacy building blocks at CIT.

kim: NUTN. system-wide membership. annual conference in september. and awards are open now.

michael: DL taskforce at farmingdale policies and procedures for DL. best practices for online courses. procedure for observing online courses. not yet implemented - for next academic year. Writing center has a presence in ANGEL as a resource. with live online consultations.

UALBANY - taskforce at the university level. Has lots of ideas!! School of public health. Online masters degree. looking for internship opportunities developing capacity.

Bob - TC3 Kaleidascope - OER courses in Math and Psychology . scaling with several additional SUNYs:

- Finger Lakes
- Onondaga

eric cornell: etext books piloting across campus. 3rd pilot. eportfolios - community of practice. eportfolio student consultants working with students and faculty.

Ed- Cayuga - assessment day every year. using collaborate for tutoring students. service learning and internships question.

UALBANY - is taking students from other states. would love a link here.

shannon: binghamton - college of arts and sciences. looking at training. no official courses in fall and spring. Summer offer 100 online courses taught by grad students. need to expand training for them. looking for how to support them. no IDs. at the beginning stages.

Isabelle - Oswego - teaching first online course this semester. We are exploring a solution for providing our students with flexibility between online version of a course and presence at our Metro Center and/or in Oswego. We will study a hyflex solution to resolve this starting next autumn semester. I am also preparing an online masters in health informatics and find all the presentations in this conference very helpful for that preparation.

megan - Bufstate - BB migration. goal to have all syllabi accessible by summer. resource person in each department.

patrice ESC international programs. COIL course. panama and slovakia. habitat for humanity. working in virtual teams. virtual term abroad. Links?? experimenting with different sync video tools.
