4. Training Needs - SGT training was informational but some members feel that more training is needed for the team to feel equipped to lead in a productive way. One technical need would be more training in Robert's Rules of Order. Another thing we need to consider is what do we want to accomplish as a team. One suggestion would be to look at the School Improvement Plan. Brittney proposes leading an activity where we can define our roles and protocols. We will include it as part of our next agenda. We will add a standing item "School Improvement Plan" (Student achievement, human resources, community collaboration, financial).
