College Democrats at UC Riverside Statement on 2024 Election Results

RIVERSIDE, CA – Last night, we all witnessed a hard-fought journey for change and the disappointment of Vice President Kamala Harris's loss. For many of us following her campaign, it was inspiring to see her trailblazing leadership and commitment to progress in this country. While this election result feels like the end, it is not.

As always, we as Democrats respect the democratic process and reaffirm our commitment to the peaceful transfer of power, which is the cornerstone of our nation's values. We remain steadfast in our belief that democracy must be upheld, regardless of the outcome.

Our mission does not end here. We will continue to stand firmly for a nation that should prioritize the working class, protect reproductive freedom, and fight for a clean and sustainable planet. We advocate for economic policies that empower working people and strive for a more equitable economy for all Americans. We remain resolute in our stance on protecting reproductive rights, ensuring that everyone has the right to make choices about their body. And we will continue to push for policies that prioritize climate change and environmental justice.

Though these results were not what we had hoped for, we will not give up. We thank Vice President Harris for her courageous leadership and express our gratitude to all who worked tirelessly on this campaign. Looking toward the future, we are more determined than ever to fight for the change we need to see.

In solidarity with you all,
College Democrats at UC Riverside

About CDUCR

The College Democrats at the University of California, Riverside is a premier organization dedicated to empowering young leaders, fostering political engagement, and advocating for progressive values. CDUCR works tirelessly to build coalitions, champion Democratic ideals, and prepare the next generation of changemakers.
