

Steve Mellor - Digital Products 101 Masterclass

I made \$75K selling Digital Products over the last 8 months on Instagram

I did this with 0 employees and spending \$0 on ads.

Now, I want to teach you my exact process so you can launch your own Digital Products in the next 30 days.

Stop me if these resonate:

- > The idea of booking calls and endless 1:1 clients has you stressed
- > You're tired of trading your time for money and client changes
- > You want to make money from social media but don't know where to start
- > You see others having success selling digital products and you wish you had that for your business too

Well you're in luck!

I'll teach you exactly how to break free from that and turn your knowledge and skills into a profitable Digital Product.

You'll build it once and then you can keep selling it over and over (and over) again!

Digital Product Launch Live will cover everything you need to know about How to create, launch, and sell your Digital Product on Instagram.

What We'll Cover inside

- > How to find your profitable Digital Product Idea
- > How to Outline and Design it (I'll even supply templates)
- > How to Set up your Online Store for Free
- > How to Craft a Content Marketing Strategy that will promote your product for you on autopilot
- > Bonus tips to accelerate your Digital Product Launch

This training will be held **Live** but a recording download *will be available* after the training for unlimited access.

Due to the nature of the training and digital downloads, there will be no refunds.

I'm stoked to teach you all about how to create and launch a profitable Digital Product
