

Realsmart guide to smartlogin

Smartlogin is our authentication and single-sign-on service. It is a secure way for users to log in to their realsmart accounts and smartsite internal pages, realsmart applications and get access G Suite for Education.

Opening smartlogin

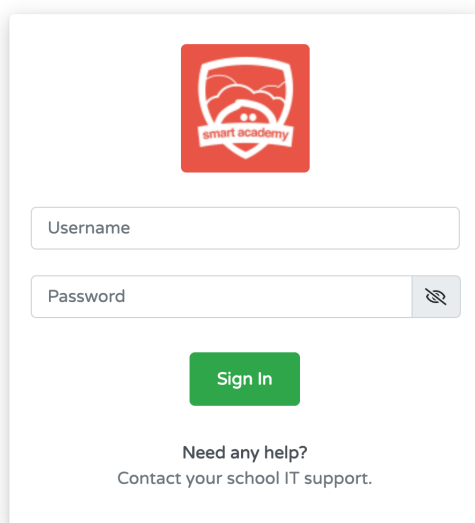

There are 2 ways to access smartlogin

Preferred method

Use the login button on your smartsite

This will take you to the smartlogin form where your school has already been selected.

A screenshot of the smartlogin form. At the top is the 'smart academy' logo, which is a red shield with a white stylized face and the text 'smart academy' below it. Below the logo are two input fields: 'Username' and 'Password'. The 'Password' field has a small eye icon to its right. Below the fields is a green 'Sign In' button. At the bottom, there is a link that says 'Need any help? Contact your school IT support.'

Alternative method

Navigate to <https://smartlogin.realsmart.co.uk>. This method can be used if, for example, a network manager wants to set users' homepage to the smartlogin form.

This will take you to the smartlogin school selector page.

First Select Your School

Abbeyfields School

Continue

Need any help?
Contact your school IT support.

Use the drop-down menu to select your school and click Continue. You can also use find-as-you-type to select your school. Start typing your school's name and the selector will narrow down the list. Clicking Continue will take you to the smartlogin form.

It is possible to bypass the school selector page by adding your realsmart school ID to the end of the smartlogin URL. e.g. <https://smartlogin.realsmart.co.uk/smartlogin/login?school=623>
Your school ID can be provided by realsmart support (support@realsmart.co.uk)

Log in

Enter your username in the top box and your password in the bottom box.

The password box will display stars as you type your password, clicking the eye icon will display the password in plain text. This is useful for younger users who may have difficulty if they can't see their password as they type. Be careful using this mode not to accidentally show your password to someone you don't want to see it.

Click Sign In

Login Successful

You will be returned to your smartsite homepage

The screenshot shows the City Academy Smartsite homepage. The top navigation bar includes links for ABOUT US, STUDENTS, STAFF, PARENTS, COMMUNITY, CONTACT US, and TEACHING SCHOOL. The main content area is divided into two sections. The left section, titled 'UPCOMING EVENTS', lists three events: Football Training on Monday (4:30pm - 5:30pm), Morning Swimming on Wednesday (7:30am - 8:30am), and Chess Club on Thursday (3:30pm - 4:30pm). The right section, titled 'Cover', displays a 'Daily Cover : Sheet1' table with columns for Sim, Class, Absent Staff, Room, Staff, and Notes. The table contains five rows of data. Below the table, there is a 'Contact Cover Supervisor' section with the Ext 251 and Email cover@cityacademy.net.

Sim	Class	Absent Staff	Room	Staff	Notes
1	7c1Eng	MbR	45	Si Brown	Cover in staff room
1	9aBio	FTY	23	Supply1	Work in realsmart
2	7c1Eng	MbR	14	BrO	Cover in staff room
2	10dSci	FTY	43	BrO	Work on Coursework
4	11aMat	FTY	31	Supply1	Indepent exam prep
5	11aMat	FTY	31	Supply1	Work in students email

Login Unsuccessful

• Username or password is incorrect

Need any help?
Contact your school IT support.

If either the username is not recognised or the password is incorrect for that user then the above error message is displayed. For improved security, we do not display which entry was incorrect.

Login and Change Password

An admin can require that a user change their password the next time the user logs in. When this option is set in smartadmin a user first logs in with their current password, they will then be presented with a change password form.

Please Change Your Password

Old Password

New Password

Confirm New Password

Your new password should contain one upper case letter, one lower case letter and a number.

Change Password

Enter your current password to authenticate the password change, then choose a new password and type it into both boxes. This is to ensure that you haven't made a typo when entering your new password.

Ensure that both entries match and that the new password meets the requirements in the blue box. These requirements are specific to the password policy chosen by the admin, either simple or complex. A simple password can be lowercase letters only but must be 8 characters long. A complex password must be at least 8 characters and also must contain a mix of upper and lower case letters and numbers.

If the new password in the confirmation box doesn't match the one in the New Password box the following error will be displayed.

Please Change Your Password

- The password confirmation does not match.

Old Password

New Password

Confirm New Password

Your new password should contain one upper case letter, one lower case letter and a number.

Change Password

If you enter your current password incorrectly this error will be shown

Please Change Your Password

- username or password incorrect

Old Password

New Password

Confirm New Password

Your new password should contain one upper case letter, one lower case letter and a number.

Change Password

If there are no errors you will be returned to the smartlogin form where you must log in with your username and **new** password. The requirement to change your password on login will be unset and you can log in as normal.
