

SM3 2F Multiplicity Name _____

Level Clear Screen: Serpent Dancer's Self-Assessment

The Story: "The final dance is complete. You've read the serpent's every move. Report back to the Guild and log your mastery of these ancient and powerful patterns."

The Activity: Complete your Self-Reported Grade.

- **10 (Serpent Master!):** I can flawlessly predict a serpent's entire dance—its end behavior, where it breaches the Veil, and *how* it breaches (pass-through, bounce, or slither)—just by reading its energy signature (the equation).
- **8 (Skilled Dancer!):** I can confidently read the end behavior and identify the breach points, but I might need to double-check my notes on the difference between a "Veil Tap" (bounce) and a "Veil Slither" (wiggle).
- **6 (Apprentice Dancer!):** I understand the basic steps but get the different dances mixed up. I need more practice with my team to read the patterns correctly.
- **4 (Out of Step...):** The serpent's movements are still a blur. I need more guidance to understand the connection between the equation and its dance.
