

At Bexley Dental, it's our job to put a smile on your face. Sometimes that means restoring your smile, so you can feel more confident. Other times, it's providing preventative services like regular dental check-ups and cleans to keep your smile healthy for years to come. Whatever your reason for needing a dentist, we're happy to welcome you

For over 27 years, the Bexley Community has put trust in Bexley Dental to deliver high-quality dentistry. We strive to provide quality care and believe the difference is in the details. We invest in the latest dental technology and our dental partners are regarded as some of the best labs in the country. These reasons ensure we can provide fast, accurate diagnostics with beautiful and durable restorations.

Quality dentistry is important, but it's just as important that people can afford it. Bexley Dental is a Bupa Members First practice and offers a selection of flexible payment options to help make our dental treatment more accessible.
