You worked hard this year.

Revenue is up. Business is growing. You're doing everything right.

Then the tax bill lands. And that familiar knot forms in your stomach.

You're paying more than last year. You're not sure why. And somewhere in the back of your mind there's a nagging feeling that you're missing something.

You're probably right.

Most six-figure business owners overpay in taxes not because they did anything wrong but because nobody ever showed them how their structure affects every dollar they keep.

That's what this masterclass is for.

In 90 minutes on April 9, you'll learn:

- ✓ **Why your business structure is the #1 factor in your tax bill** and what to do if yours is wrong
- ✓ **The S-Corp question answered clearly** what it is, whether it applies to you, and what it's worth at your income level
- ✓ **The 3 highest-impact tax levers** most business owners at \$100K–\$500K have never used
- ✓ **Why filing on time isn't the same as being optimized** and what the difference costs you every year

- ✓ **What proactive tax planning actually looks like** and how to start before the year is over

You will leave this masterclass knowing exactly where your money is going and what needs to change.

This masterclass is for you if:

- ✓ You're a self-employed business owner making \$150K–\$750K+ annually
- ✓ You're structured as a Sole Proprietor or LLC and have never had the S-Corp conversation
- ✓ Your revenue grew this year but your take-home didn't scale with it
- ✓ You have a nagging feeling you're leaving money on the table
- ✓ You want clarity on your tax position without committing to full-service advisory (yet)
- ✓ You're ready to stop guessing and start knowing

This is NOT for you if:

- ✓ You're a W-2 employee (the strategies won't apply)
- ✓ Your business makes under \$150K in revenue
- ✓ You're looking for a tax preparer or bookkeeper
- ✓ You want a free webinar (this is a paid, premium event for serious business owners)

Here's what's included when you register:

- ✓ **90-minute live masterclass** on April 9 at 6:30 PM Central Standard Time
- ✓ **30-day replay access** watch again anytime for 30 days after the live event
- ✓ **BONUS: The Six-Figure Owner's Guide to Tax Write-Offs** (\$29 value, included FREE with your registration) 25+ deductions you can't afford to miss
- ✓ **Live Q&A** get your specific questions answered directly

What happens after the masterclass?

You'll leave with clarity. What you do with it is your choice.

- ✓ **Option 1: Implement it yourself.** Take what you learned and work with your current CPA or tax professional to execute. Everything you learn in the masterclass is yours to use.
- ✓ **Option 2: Let me do the deep work with you.** For a limited number of masterclass attendees, I'm making my Business Books Audit available at a special price. I'll review your actual books, identify your specific opportunities, and give you a complete written report plus Loom video walkthrough of exactly what I found. Details inside the masterclass.
- ✓ **Option 3: Join my advisory.** If you're ready for year-round tax strategy and implementation support, we can talk about what that looks like. No pressure. No hard sell.

Either way, you'll know where you stand. That's what the \$99 buys you.

About Precious Rutlin — The Tax Savers Best Friend

I'm Precious Rutlin, a Strategic Tax Advisor with 22+ years helping six-figure entrepreneurs stop overpaying the IRS by \$15k a year by building a strategy that changes what taxes cost before the tax bills arrive.

Before this, I managed over \$14M in federal funds, auditing for risk and compliance, and training in fraud detection: inside financial systems most business owners never see. I know the IRS thinks, where the opportunities are, and what it actually takes to keep more of what you earn.

I work with Sole Proprietors, LLCs, and S-Corps who are ready to move beyond basic compliance and into proactive tax strategy people who know they're leaving money on the table but aren't sure how to fix it.

This masterclass is the fastest way to find out where you stand.

What others have discovered:

"I always assumed my accountant handled everything. After walking through a few simple strategies, I realized how much I was leaving on the table. I fixed how I paid myself and cleaned up deductions I didn't know I qualified for and saved around \$9,800. Nothing extreme, I just finally understood the rules."

Frequently Asked Questions

- ✓ **Do I need to prepare anything before the masterclass?** No. Just show up. If you want to get more out of it, have a rough idea of your annual revenue and business structure.
- ✓ **Will there be a replay?** Yes. You'll have 30-day access to the replay. After 30 days it comes down.
- ✓ **Is the ebook delivered automatically?** Yes. You'll receive the ebook download link within 24 to 48 hours after you register.
- ✓ **What if I can't make it live?** You can watch the replay. The Q&A will not be available in the replay, so live attendance is recommended.
- ✓ **I already have a CPA. Is this still for me?** Yes. This masterclass is about tax strategy, not tax preparation. Your CPA files what happened. This is about planning what should happen. They're two different conversations.
- ✓ **Will you prepare my taxes?** No. This is strategic education. Tax preparation is a separate service.
- ✓ **What is the special audit offer mentioned?** A limited number of Business Books Audit spots will be available to masterclass attendees at a special price. Details will be shared during the masterclass.
- ✓ **Is this a pitch fest?** No. This is a teaching event. There is one offer made at the end, presented clearly and without pressure. You will not be sold to for 90 minutes.
