

# ***GLOBAL COOKIES***

**Our science class is testing different ingredients to find out how to make the BEST chocolate chip cookies. As part of this project, we want to know what kind of cookies (or other sweet treats) you make with your family!**

**Find your location on [this padlet](#) and tell us about your favorite type of cookie. If you find something new or even someone else with the same favorite, leave a reply or a like! Using the padlet doesn't require you to sign in. Just click the plus sign, find your location, and then describe your favorite cookie. You can add a picture or links, but those are not required!**

**Please feel free to respond in your language. Posts can be translated into English, but it isn't a requirement! We look forward to learning about your cookies!**
