

Name: _____

Date: _____

My Collaboration Web

First, put your name in the middle rectangle. Then fill in the other rectangles with the names of your other classmates who helped you with your projects. Now, draw lines from your rectangle to each of your classmates for every time they were there to help you. This will help you with your thank you card!

The template consists of a central rectangle and 16 surrounding rectangles arranged in a circular pattern. The central rectangle has a horizontal line across its middle with the text "(Your Name)" centered below it. The surrounding rectangles are intended for the names of classmates who helped with projects. Lines should be drawn from the central rectangle to each of the surrounding rectangles to indicate the frequency of help.
