Hello! Hope you are well

5/19/2016

I will be on AM radio on Saturday as a guest on the "Flabby Hoffman Radio Extravagonzo Show."

SHOW INFO: The station broadcasts on 1680am. Being way at the end of the dial, and not having the 50,000 watt blowtorch of a transmitter, it might be tough for many to pick it up on their radio dial. I am told the northside and northwest sides of the city is where the strongest signal is...like around Rogers Park through Ravenswood, Albany Park and Portage Park, etc. Those that cannot catch it on the broadcast however can catch it on the web simulcast at <http://www.que4.org> (currently the play button is at the bottom of the screen on the current incarnation of the [Que4.org](http://www.que4.org) site....positioning of the button however is subject to change due to various aesthetic factors that I have no control over...so you might have to hunt and peck some.

Please like and share the crap out of my impending appearance on the show. Our survival/thriving depends a whole lot on word of mouth. The facebook fan page is <https://www.facebook.com/flabbyhoffmansradioextravagonzo>

WE CAN GET CALLS ON THE SHOW LIVE: friends and fans can call in at 312-985-7834 and we shall grab what we can for the show.

FYI, the station phone system is not robust. We just moved and its still a touch shambolic. It doesn't have a lot of lines and since this is a weekend show there is no attendant to screen the calls onsite. So if it is busy, try us back.
