Dear Hiring Manager,

My name is Zachary, I am an experienced visual creator with a specialization in Motion Picture and still photography. worked on a vast variety of projects from low budget short films, to high end film and television, as well as personal creative projects. No matter the subject or budget, they approach every project with passion and expertise.

During my career as a Prep Tech, I developed a vast wealth of technical knowledge and skills around the tools and equipment of filmmaking and photography. I proved myself in those positions by remaining calm under immense pressure and working efficiently. These skills were incredibly useful and were only strengthened when I transitioned to working with Arri Rental, and collaborating with the camera crews of projects such as *Euphoria*, *Antman and the Wasp*, and *Kong Vs. Godzilla*. During my time at Arri Rental, I was put into the position of having to manage both the rental house, and a few interns myself. I fearlessly stepped up to the plate and managed to operate and delegate operations successfully for several months, including a facility move.

I brought my leadership and organizational skills to my previous position as Content Producer at Bond Audio. There, I distilled the deliverables list into a simple yet comprehensive document that made the entire content team much, much more efficient and organized. I was also able to foster my own creativity in a professional setting which led to improving my own work as a photographer and cinematographer. During all of my professional experience, I also worked on my own projects either with friends or as a solo filmmaker. Much of that work can be found on my portfolio website. I see my own output as an extension of my professional work. I am passionate about my career and creating images that inspire and tell stories.

Feel free to reach out to me if you have any questions about my experience. I look forward to speaking with you and learning about the position further. Thank you for your consideration.

Best,
Zachary Shea Mills
