PENDAHULUAN

Introduction, background, reasons for the importance of underlying research or hypotheses, general approaches and objectives of research and relevant literature review. The number of paragraphs not restricted but the contents must include background, objectives, positions on previous research, as well as the novelty of the research. The little theoretical

basis which indirectly related to the contents of the article could be included without sub-chapters required. Citation of more than one author written in et al.

METODE

Methodology, Research method consists of 2 sub-chapters including materials and methods. If data analysis is specific, or the way of analysis is novel, then data analysis subchapter could be added. The sub-chapters are written without numbering or bullet

At least 3 chapters are needed for the review article and 2 chapters for the mini review. The description of the results can be in the form of tables and images with sequential numbers (**Tables** use **roman** numerical sequences and are placed at the **top**, while **Figures** use sequences of **Arabic** numerals and are placed at the **bottom**). The loaded table does not use vertical lines. The font size in the table can be reduced up to 8 pt font.

Example:

Table I. Observations of organoleptic gel preparations

CONCLUSION

Conclusions made in one paragraph without citation contain final conclusions and suggestions for further research activities.

PEMBAHASAN DAN HASIL

Results and Discussion at least contain three subjects (1) description of results, (2) interpretation or explanation of results, and (3) comparative of results with previous studies results. If the subchapters very length could be made sub-sub-chapters with Arabic numbering. Description of the results can be in the form of tables and figures with serial number (Table uses a sequence of Roman numerals and placed at the top, while figures using Arabic numeric sequence and placed in the below).

KESIMPULAN

Made in a single paragraph without the citation contains the final conclusion and suggestions for advanced research.

DAFTAR PUSTAKA

The references used as much as possible are the latest references published in the last **five** years (minimum **75%** of at least **15** references). The bibliography is written in chronological order with the serial number (*Vancouver System*) and is recommended to use reference management applications such as EndNote, Mendeley, Zotero, and other applications.
