

NINJA GAMES 101

So what are the Ninja Games?

The Ninja Games is a youth sports competition showcasing the athletic fusion of obstacle course training, gymnastics, parkour, and modern martial arts. Athletes compete against the clock for points in skill, strength, agility, and style.

The Ninja Games allow your Ninja to try different and challenging things. Performing in front of a group (especially family, peers, and strangers) presents the opportunity for Ninjas to bust out of their comfort zone and really embrace those butterflies-in-the-tummy moments!

At the Ninja Games, each Ninja will compete in their level by participating in three courses of the competition. Ninjas will be tested on their agility, strength, and form throughout the courses. Ninjas build up points for the skills they perform and even attempt skills.

Agility Course - This course will focus on tumbling skills, wall skills, utilizing springboards, mats, trampolines, and more. Each Ninja has 44 seconds to complete this course. If the buzzer is not pressed by 44 seconds, the ninja will receive a time deduction.

Strength Course - This course will utilize the hanging rig obstacles as well as bar skills and vaulting. Each Ninja has 44 seconds to complete this course. If the buzzer is not pressed by 44 seconds, the ninja will receive a time deduction.

Bonus Obstacle Course - This course is in our inflatable obstacle course. Each ninja will be timed through the course and will earn bonus points. No deductions are taken from this course.

The contestant with the highest point sum at the end of the competition will be declared the Ninja Games champion in each level.

At the end of the games, each Ninja will receive a participation medal for their efforts and hard work. The top three competitors from each level will receive a medal and be deemed the winners of the competition.
