

CHAMPIONSHIP HISTORY

NEW WORLD CHAMPIONSHIP

The new world order of pro wrestling is beginning here at CU:LT. The holder of this championship represents an entire generation of misfits, underappreciated and hungry fighters tired of waiting for their time in the spotlight. The New World Championship aims to amplify voices in the industry often drowned out and ignored - but you'll have to fight to be heard and the person holding this championship has the biggest stage in CU:LT.

The championship will also be open to all tag teams in open challenge form whether they are a registered tag team with the promotion or not.
