4. FIRST-AID MEASURES

Inhalation: Remove to fresh air. If breathing has stopped, apply artificial respiration. If breathing is difficult, give oxygen provided a qualified operator is available. Seek medical attention.

Skin Contact: Remove contaminated clothing and wash contaminated skin with large amounts of soap and water. If irritation persists, seek medical attention. Launder clothing before reuse.

Eye Contact: Flush eyes with large quantities of water for 15 minutes and seek medical attention.

Fire Fighting Instructions:

Use water spray to cool fire exposed containers and to prevent pressure or possible explosion when exposed to extreme heat conditions. If water is used, fog nozzles are preferred.

Extinguishing Media: Dry chemical, carbon dioxide or foam.

Fire and Explosion Hazards: Handle as a flammable liquid. Vapors are heavier than air and may travel along the ground and moved by ventilation.

Vapors form an explosive mixture in air between the LEL and UEL.

Protective Equipment: Wear NIOSH approved self-contained breathing apparatus with full face piece and protective clothing for skin and eye contact.

6. ACCIDENTAL RELEASE MEASURES

Small spill: Use vermiculite or other absorbant material to collect liquid.

Large spill: *Eliminate all ignition sources.* Contain run-off with absorbant materials such as sand, clay or diking. Transfer liquid and absorbant material to an approved container. Keep spill out of sewers or any access to bodies of water. If run-off occurs, notify proper authorities as required.

7. HANDLING AND STORAGE
