

MTSS Self-Reflection Google Form

Principals,

We have a self-reflection Google Form you can use with your staff to talk about your school's MTSS implementation. We suggest you read through the following directions and keep them close as you prepare the form for your staff. In this manner, results go directly to you about your school.

1. After you click on the link provided, a Google Form will open in your drive.
2. Click "USE TEMPLATE" in the upper right corner of this form.
3. The form is yours now. When you click "SEND", you will be asked who you'd like to send the form to. Include the gnsps/sepne addresses of your staff. In order to tabulate all results together, we recommend creating the form *only once* and sending it to everyone.
4. As staff complete the form, results will be stored in your copy of the form (in your Google Drive). You can view results as the forms come in by opening the Form on your drive and clicking the word "RESPONSES" at the top of the page.

****Remember to remind your staff not to use students' names and identifying details in this Google form.**

Ok, ready to go! Click [HERE](#) for your self-reflection form.

If you need any support with this form, please let us know at ie_mtss@gnsps.ca
