

Living Skies Solar...

Subject Line:

Living Skies Solar effortless growth plan!

Hey Living Skies Solar team 🙌

It's cool how you have taken so many pictures of previous projects, the images work as a great form of "proof of competency".

Going through your website I found a few changes that could be made to attract customers better.

When you reach out I will give you the list of potential changes for your homepage. On top of that, I will study the other parts of your website to further improve it.

Warm regards,
John
