I hit legend in Wild (Secret Mage) right before the miniset, and in Standard with Unholy DK

Blutrane:

BUSY BUSY BEE

SchmoopieDaddy:

Since I've been on the show I've spent most of my time being sick in one form or another. I bounced around top 500-top 200 for a while until it was the 15th and I asked myself "What am I doing? it's new noz day". I've been achievement hunting in the 3ks ever since which gets you between bronze and gold mmr.

A bunch of cards updated to Dual Class minions:

Leo Robles ❤️ @MyntyPhresh · Feb 15

Let's address the mecha-elephant in the room:
Why did we change so many minions into Mech/Beasts in the latest patch?

In 25.0, we added dual-type minions and adjusted several minions in Standard and Wild to fit the new dual-type world. (1/4)

At the time, we did not make cards like Spider Bomb or Ursatron Mech/Beast and kept them as just Mechs. After all, they're Mechs made in the image of Beasts, not "real" Beasts.

BUT, we DID make cards like Lightray or Arcanosaur Elemental/Beast.

Thing is, Lightray and Arcanosaur aren't "real" Beasts either. They're just Elementals that take the shape of Beasts. Because of this, we re-evaluated how we wanted to treat cards like Ursatron to be consistent with our new dual-type ruling on cards like Lightray. (3/4)

Leo Robles ❤️ @MyntyPhresh · Feb 15

With dual-type minions being a brand new thing, we want to be as consistent as we can with the rules around it. We do see that some changes are having bigger effects on decks than others and will keep a watchful eye out for minion dual-type synergies in future sets. (4/4)

Do you think this will impact Wild?

Skulking Geist updated to destroy all 1-cost spells:

Link to tweet/thread: https://twitter.com/Hearth_Tech/status/1625709688896770050?s=20

Previously it was destroying based on base cost, not current/actual cost. Dev comments indicate its been updated to clear any standout inconsistency and “what you see is what you get” approach.

Any impact to Wild?

New Diamond Wild Cards!

New Diamond Versions of Iconic Cards

Reno Jackson, Patches the Pirate, and Zola the Gorgon now have shiny new Diamond versions that you can earn by completing the Legendary 5 Achievement for their respective original sets. The Diamond versions of Reno and Zola will be unlocked in Core when they are unlocked through their Achievements.

Even though Reno Jackson and Zola the Gorgon are in the Core Set (temporarily?), I'll always think of them as Wild cards.

Here's how you get them:

Complete the "Legendary 5" Achievement for their respective original sets.

Reno: Collect all 45 League of Explorer cards.

Patches: Collect all 20 Mean Streets of Gadgetzan Legendary cards.

Zola: Collect all 23 Kobolds and Catacombs Legendaries.

These adjustments will take place across all platforms and stores. Any initial price disparities across platforms will be resolved shortly after the 25.4 patch is released.

@machadogps this was the only "warning" we got. Posted around midnight last night. Not sure how much time there was between the post and the actual price increase.

I only found out minutes ago after searching the forums...

I've been playing the list that Zeddy posted. I haven't been winning all that much with it, but it's really fun and when it works, it works really well.
