My SB guide for most of the popular decks

Mirror

(Go blank is a card that can be considered for the mirror but depends on the number of kroxa in the opponent's deck. Would only bring in max one. Be careful sometimes go blank is very slow and can make you fall behind on the battlefield if you bring it in)

You on the play

In:

1x Kroxa, titan of deaths hunger
1x Liliana of the veil
1x Reckoner bank buster
1x Kolaghn's command

2x blood tithe harvester
1x Liliana of the veil

Rac Sac

(Go blank is something I'm not 100 percent on in this MU but if they are playing two kroxa in the 75 I like to bring in one if one to no kroxa in the 75 then I would not bring it in)

UW control

(lotus control and UW control are very similar main difference is dream trawler and/or cat package vs the dream trawler extinction event is your friend. SB accordingly, Ex keep in a couple of extinction events if you see things like dream trawler, starheim unleashed, and invasion of new phyrexia over cards like heartless act or graveyard trespasser)

Play and draw

2x go blank
1x kroxa, titan of deaths hunger

1x abrade

1x extinction event

Izzet creativity hulk/wurm

(Vs worm extinction event can be considered because it can clean up worm tokens after a heartless act. The goal is to not let the worm player combo)

Play and draw

In:

2x go blank

1x kroxa, titan of deaths hunger

1x duress

1x reckoner bankbuster

1x Liliana of the veil

1x Kolaghan's command

Out:

4x fatal push

1x abrade

1x extinction event

1x heartless act

Izzet Phoenix

(not sure about Volly but could be considered. Less experienced on this MU, my thought is no but could differ from list to list. If bankbusters are in there SB consider keeping in abrade)

Play and draw

In:

2x extinction event

2x go blank

1x reckoner bankbuster

1x Liliana of the veil

1x duress

Out:

1x kroxa, titan of death hungar

4x Bonecrusher giant

1x kolaghans command

1x abrade

Neoform Atraxa

(If bank buster is in their side consider keeping in abrade and/or command for two bone crushers)

Play and draw

In:

1x abrade
1x Kolaghan's command

Enigmatic Incarnation

(Small difference between the Yorion version vs the Hippo version Yorion version is I think worse for RB. Go blank is something to be considered but not spectacular. How good an extinction event is in the MU varies from list to list)

Boros convoke

(wrote this MU upon request. Kolaghn's command is a card that could be kept in as one of to blow out gleeful demolition in the later stages of the game. I think it's probably too slow and should be sided out because, in addition to being too slow, you also are bringing in sweepers to clean up creatures doing a similar job but usually having more upside and less time sensitive.)
