Promo tips

Please read: We run a legitimate business. We represent our products accurately. Please do the same. Avoid false claims or anything that doesn't comply with the FTC guidelines.

Here's how to generate more commissions:

- 1) Do a video review of Voice Profit Engine: In case you haven't tried this before, video reviews will generate as much as 3 times the sales of simple text.
- 2) Offer limited bonuses: For example: *"If you are one of the first 18 people who buy through the link in this email, you will also receive bonuses XYZ."*
- 3) Presell the [ENTIRE funnel](#).
- 4) Email more than once: You can use a different subject line each time. If you send HTML emails, your autoresponder system may also allow you to email the unopens (just in case you are concerned some of your subscribers will see the same email twice).
