

“S” Club Summary April 16th

Good attendance. Almost all attended - 3 a little late but - whatever.

Burritos, chips and salsa, cookies, a few mandarins, a little candy - a potpourri!

Had planned to do an Earth Day cleanup but with 15 students we did not have enough equipment nor a good close-in location so we had to abandon the idea.

But we revisited the Dream Boards that had been started earlier.

Not surprisingly Chris' board features Bad Bunny - good choice! Also surprisingly the girls were happy to get back to this project and were bummed when the session ended.

Nushi also took the group through cool exercise where students were paired up and we asked to draw their dream house together using and both holding just one pen. Roof designs were different indicating what climate a house might be located in. Questions about which partner dominated etc.

Here is what we have/had planned. Have to rethink May meetings.

April 30 - Robin Rocha to speak on financial issues - **need more feedback from students on what issues they have. Send an email?**

May 14 - ~~finish Vision Boards and~~ Write letters to future self. Do we have Room 36 for this? ~~Also need additional plan for students who have already finished their boards.~~

May 28 - OPEN ROOM 36????

June 4 - Final party with group. Write anonymous appreciation comments for each member. Celebrate the Seniors!

ROOM 36????
