February 14, 2023

Dear Parents and Guardians,

The purpose of this letter is to provide students and families with information to assist with course selections/registration decisions for School Year, 2023-2024.

On Friday, February 10th, during Advisory, students will receive preliminary instructions about course registration. The ARHS Program of Studies, which contains department overviews, detailed course descriptions, and information about our academic programs and policies, can be accessed online at the following address: [Course Registration Information](#).

Online course registration will open February 15 and will end on Friday, March 3 at 3:35 p.m. Please note counselors will be available in the main lobby on February 16, 17 and during the week of February 27 to March 3 during lunches and during the plus blocks in the main lobby for individual student questions and registration. The most efficient way to have questions answered around registration is for students to drop in during these times. Parents/guardian questions during that week should be emailed to the student's counselor. *Please note all students will have a 1-1 meeting with their counselor in March and April to make any updates and adjustments.

The course requests we receive in February help us to allocate resources for the following year. It is essential that we get a full set of requests for each student at this time. If students need to make changes after their meetings with counselors, they may revise their requests during the verification process in early April. Creation of student schedules will begin at the end of the course verification process.

Should you have any questions about course registration, we encourage you to contact your child's school counselor. Here is the [counselor contact information](#). If you need additional assistance, please feel free to contact Judi DellaMarco in the scheduling office at dellamarcoj@arps.org

Sincerely,

Samantha Camera, Assistant Principal
Judi DellaMarco, Scheduling Assistant
