

My Pet Fox

By Kate Mumm

Hi, my name is Kate and I have a pet fox. My fox is named Foxy. Foxy likes to play with other animals. Foxy helps other animals too. Foxy's best friend is a fox named Connor. Connor likes to swim in his pool. He is fast. Foxy has a little sister named Killian who is a fast runner. Last year there was a great animal rescue. Foxy was looking for some food when he saw a dragon. The dragon was flying high above him. Foxy called out to him, "Hi! What is your name?" "My name is Lily. Then Lily's wing hit a tree branch. Lily shouted "help" then Lily hit the ground with a crash! I ran to get Connor and Jillian to help Lily. Lily could not fly. Lily's bone was broken. Lily had 6 dragon eggs. A day passed on Monday 5 of the dragon eggs started to hatch. The babies were black and white. A month after, the eggs hatched. The last egg hatched. Lily was so happy her baby did not die. Now every year Lily flies here with her babies. Lily named her babies Jenny, Jason, Ryan, Rob, Griffin, and Foxy. It is Christmas time and Lily got her cast off. She thanked us then. After Christmas Lily came back to join us with her babies.
