

AMPLIFY DESIRE MISSION:

The desire i want to trigger is: to be seen as a responsible , wealthy, respected individual

Imagine people counting on you with their important work, imagine them coming up to you and saying “brother, you are the only one i can trust with this, please help me” you become laser focused, and listen to his request And your mom being able to quit her abrasive job that she hates and then thanking you, hugging you for the gift you gave her of being wealthy, you feel happy for the time you have putten into this dream.

All of your surrounding people will pay respect to you, loving you more because you provide for them
