

Self Translated VoicePacks (Resources & Infos)

General info & Rule of thumbs:

1. The list is updated periodically, I mainly translate **Holostars VPs**
2. You do not need to pay for these translations, but you're free to tip me through my [ko-fi](#) or [buymeacoffee](#) which will greatly help me to continue doing this!
3. If you're looking to DM me for these VP translations please keep in mind to include a screenshot that contains both your **order number** and the **filename of the said track** ([example screenshot](#))
4. I do this as a hobby and to spread more JP content to English speakers, you're free to suggest something to translate as well (paid or not) and I might consider picking it up if I have the time to do it!
