Authors' Contributions

The contributions of authors to the manuscript should be specified in this section. For example; the statement should be added that “the authors contributed equally to the study” or “the 1st author contributed ...%, and the second author contributed% ...”

Funding and Acknowledgements

All sources of funding for the research reported should be declared and acknowledgment information should be added here. If you do not have anyone to acknowledge, please write "Not applicable" in this section.

Competing Interests

Competing interests must be declared in this section and the approved plan for the contingency should be reported. If there is no conflict of interest, it should be stated that “there is no potential conflict of interest”.

Ethics Committee Declaration

If it is a study that requires ethics committee approval, it should be reported.

Author's Biography

The biographies should contain information not exceeding 100 words for each author about the author's fields of work and recent work topics.
