

Star of the Sea Catholic School
Grade 3A ~ March 2024 Newsletter

Dear Parents,

We are getting ready for your visit next week and can't wait to show all our hard work with you. Thank you for reviewing the multiplication basics and helping your child begin to memorize their facts! Thank you also for going around your house to find some items to recycle or use for your child's Landform model which we will work on this Friday!

Please note that we were unable to re-book our Snowshoe trip due to the closures and lack of snow on Mount Seymour. Our in-school field trips have been great this year (Scientist visits) but we know the importance of off site trips. We have booked a field trip to the Aldergrove Zoo for our study of biodiversity on April 25 and will provide more details soon.

Big Ideas from the curriculum this month:

Christian Education: develop a growing understanding of the Season of Lent and Easter including Holy Week traditions in our Faith

Math: continue practicing multiplication facts and develop an understanding of the concept of division

Theme: continue our study of the Inuit history, complete our Arctic animal project and review the basic landforms in our world

English Language Arts: understanding what makes a Legend and the tradition of storytelling for the Indigenous people

Some important dates:

March 1 ~ have all craft/recycled items at school for landform model

March 6 ~ Student-Led conferences - please sign up on school website

March 7 ~ Confessions

March 8 ~ Our school mass - 9:15 (full uniform)

Last day of school before Spring Break!

March 25 ~ School re-opens and Holy Week begins

March 28 ~ Grade 5 Passion Play in the gym 2:00

March 29 ~ Good Friday - no school

April 1 ~ Easter Monday - no school

Some photos from this last month for you to enjoy!
