

Cloud Computing Autobiography Assignment

International Society for Technology in Education Standard

Students use a **variety of media** and formats to communicate information and ideas effectively to multiple audiences.

Learning Outcome

Students will be able to use Google Documents and cloud computing to be able to create a story that is accessible anywhere there is an internet connection.

Part 1

Using **Google Documents** write an autobiographical story about **a time in your life that changed you or made you who you are**. Make your story interesting by choosing something that truly happened and is meaningful to you. You do not have to share your story with anyone except me if you choose to write something that you prefer to keep private.

Please use **Google Documents** to write your true story. Make sure you title your story, use spell check and use the word count in tools to make sure your story is at least 1,000 words long. Please **see the rubric for the way your assignment will be graded**. It is worth 100 points. The story is due on Friday June 1st at the end of class for full credit. Share your story with mrericnielsen@gmail.com when you have completed it.

Part 2

Take your story into **Power Point** and create 10 slides with at least one picture each. Please time your slide show so that it automatically transitions and changes slides. Use pictures that relate to your story. They can be stock images, animated pictures or real pictures from your family or the event you are writing about. Remember you can use **Google Street View** to get a picture of the place where it happened. Please start working on your Power Point presentation when you finish writing your story. Part 2 will be due after the break on Wednesday the 20th of April. It is worth 100 points. If you present to the class you can get 50 points extra credit. Please email it to me when you are finished to mrrericiensen@gmail.com!
