3 on Fleek!!!

[All]

Just clap your hands, just like that
Time to get down to this funky sound
3 on Fleek!!!
3 on Fleek!!!
Boogie down to the Division, yeah!

[Ramuda]

'Kay 'kay! Let's go!
3 on Fleek!!!
Like it says, we're seriously on point
Shibuya's 3 parade through the city
"Soooo boring"--
Not when Ramuda's around
Ladies, you better watch your hearts <3
Sweet&Bitter just like kakao
Tonight should I tell you a chocolate-covered secret?
Crazy flavor; words like "boring"
Get torn right out of my dictionary

[Gentaro]

The bustling neon dances as if revolving lanterns
A world transient as bubbles atop surface tension
My heart stands scarlet as if shards of broken glass
Brush drawn across the dusk; words spun into verse
Beckoning you into a pale dream
Fluttering, falling, dancing across the riverbank
"Surely this is nothing but a phantom on the summer breeze"

[Dice]

Goin' all out, breakin' through
Goin' all in and ending up flat broke today too
Just can't get lucky, but I can get pumped up
Who cares about debt when you can keep throwing cash?
Shibuya showtime, how we feeling?
Fling Posse's hit the jackpot tonight
We've got unbreakable bonds, a mutual love
So c'mon and lend me some money, please?

[All]

Boogie down to the Division, yeah!
3 on Fleek!!!

3 on Fleek!!!

We're this city's greatest EMCEEZ
Make some noise, go wild now
Our rhyme and flow'll keep going on

3 on Fleek!!!

3 on Fleek!!!

Every player you stan's in this Mix Tape
You can't miss a battle with this lineup
Our disses've got an endless amount of variation

Welcome to Rule the Stage
No mistaking this Hypnosis Mic
Behold the trinity
Boogie down to the Division, yeah!
3x3 One Night Stage
Our stand-out, red-hot live
Oh, what a night! Come on to the show

[Samatoki]

Hey you there—get outta my way!

Rep Yokohama gangster
A.k.a "Mr. Hc", Wild Style
The real deal, no mercy, strong style
Shut your trap 'cuz I'm on the Mic
Empty the barrel, hit 'em hard
From your marrow to your outside I'm ending this grude
"Samatoki-sama's piercing the heavens"
Better keep an eye on your six
For this aloha shirt

[Jyuto]

Bayside, I rule as Bad Cop
I won't forgive your disrespect
Don't bother playing innocent, you absolute fools
I'll make you spill it all, I'm Iruma Jyuto
(Bust) Crime and Punishment, making false arrests
(Convict) Cells filled up with fakers
You've got until I finish this cigarette
To bring me your weight in bribes

[Rio]

I'm a real survivor, Hama's primal

Time for Rio, the sure shot rhymer
Warfront, equipment, inspection, I give the orders
I send the deceased my highest respects
My comrades, eating from the same bowl
Allow me to serve you dinner
Tonight's recipe is lizard
Help yourself to all the seconds you'd like

[All]

Boogie down to the Division, yeah!

[Kazu]

Guess Who's Back? Let's go

Rise up North Bastard
Akabane Division on the live
A cypher full of strong personalities
Doan will rout you out
Don't look back
The past's the past; outta my way weaklings
This is Akabane's place
Warning from Darkness, Snake, and Fox
You won't get to resist, we're taking this game

[Kokuri]

Don't need to think before you speak if it's all a lie
I'll have you charmed in the blink of an eye
MC Griffin gettin' down and dirty
But if things get risky I'll dip out quick

You think I lay it on too thick?
Call me Coward, Criminal, Slanderer?
I'll take the compliments, oh biased wise one
You worked real hard

[Saragi]

pH0, toxically acidic
MAD Snake, wild-eyed and poker-faced
I deny the validity of all bonds and love
Slithering into the shadows Anonymous
Shall I carve it into you? The dissection starts now
Would you like to assist me?
"Little guinea pig?"
Unjust Akabane, sweeping our way to victory
Your death will be solitary, no funeral to be had

[All]
