

Privacy Policy for Posh Sniper

Posh Sniper is a browser extension that provides a helper overlay for supported Poshmark pages.

Data Collection

Posh Sniper does not require users to create an account with the extension. Posh Sniper does not collect health information, financial/payment information, authentication credentials, personal communications, location data, or full browsing history.

Website Content

When used on supported Poshmark pages, Posh Sniper may read page content needed to provide its user-facing helper overlay and workflow tools. This use is limited to the extension's single purpose.

Local Storage

Posh Sniper may store extension settings and workflow state locally in the user's browser using Chrome storage.

Data Sharing

Posh Sniper does not sell user data. Posh Sniper does not transfer user data to third parties for advertising, creditworthiness, or unrelated purposes.

Remote Code

Posh Sniper does not load or execute remote JavaScript or WebAssembly. Extension code is packaged with the extension.
