MARKHAM HEATING
& AIR CONDITIONING SYSTEMS
SINCE 1983

- Emergency system breakdowns
- Urgent **Emergency Furnace Repair**
- Rapid replacement and installation services

Our team works quickly to restore comfort and prevent further system damage.

For reliable furnace installation near Denison St in Markham, our team delivers fast service, energy-efficient systems, and complete HVAC solutions. From emergency repairs to full heating system replacements, Markham Heating & Air Conditioning is committed to keeping your home or business comfortable all year long.

How It Works (Steps 1–5):

1. Schedule your furnace installation with Markham Heating & Air Conditioning, including options for HVAC Systems, heating services, and 24/7 emergency support if needed.
2. A licensed technician visits your property for a full system check, evaluates safety concerns, and recommends the best solution for your home's energy efficiency, which may include a furnace, heat pump, Home Air Conditioner, or air conditioner upgrade.
3. Your new system is delivered and prepared for installation, ensuring compatibility with energy-efficient products, Energy Management goals, and components like the heat exchanger and Heat Recovery Ventilators for improved performance.
4. A certified HVAC technician completes the installation, which may include air conditioning installation and integration with existing HVAC Systems, followed by full testing for cooling performance, heating output, and overall system safety.
5. The installation is verified through a final system check, and customers receive guidance on operation, including air conditioning, heating services, and maintenance tips to maximize energy efficiency and long-term performance.

Cost or Factors Table

MARKHAM HEATING
& AIR CONDITIONING SYSTEMS
SINCE 1983

Factor	Details
Service Type	Residential or commercial furnace setup
Emergency Services	Same-day or urgent installation
Furnace Brand/Model	All major brands supported
Pricing	Depends on labor, furnace type, installation complexity
Payment Options	Credit, debit, cash, online payments

Frequently Asked Questions

How soon can I schedule furnace installation near Denison St? Scheduling availability varies, but appointments are often available within a few days. For urgent heating concerns involving a Gas Furnace or heat pump system, 24/7 emergency service may also be an option depending on technician availability.

Does Markham Heating & Air Conditioning offer same-day service? Same-day service may be available for select HVAC needs, especially when dealing with sudden breakdowns affecting your air conditioner or heating system. Availability depends on scheduling and the type of service required.

Are both residential and commercial furnaces supported? Yes, both residential and commercial systems are supported, including Gas Furnace units and heat pump system installations. Solutions are tailored to property size, usage, and Energy Management goals.

Which furnace brands are installed? A range of trusted brands is used, chosen for reliability, efficiency, and long-term performance. Options may include systems designed to optimize the heat exchanger function and help reduce energy bills and utility bills over time.

Are warranties included with installation? Yes, most installations include manufacturer

warranties along with labor coverage for added protection. This applies to systems such as a Gas Furnace, heat pump system, or Home Air Conditioner installations.

Are the technicians licensed and insured? All technicians are fully licensed and insured to ensure safe and professional HVAC work. This includes handling complex components such as the heat exchanger, air conditioner systems, and full HVAC installations with proper safety standards.

What payment methods are accepted? Multiple payment options are typically accepted, including major credit cards and standard payment methods. Flexible solutions may be available depending on the scope of the HVAC or Energy Management project.

How do I know if I need a new furnace or a replacement? Common signs include rising energy bills, inconsistent heating, or reduced efficiency in your Gas Furnace or heat pump system. A professional inspection can determine whether repair or replacement will better improve Energy Management and long-term utility bills.
