

This is a printable for the scavenger hunt tips in this article.

<https://www.happinessishomemade.net/easter-scavenger-hunt-free-printable/>

This example is really cute! I love that it's made to be cut into small sections. I think something colorful with critters & Easter images would be perfect.

I think 6 sections is good - if it seems like we need more we can totally do that too!

I have some "clues" below. If they are too long or we need more, please let me know.

1. Happy Easter! Let's start the hunt. The first clue is found where you eat your lunch.
2. Yummy! Chocolate is a treat. Find your next clue where shoes find their seat.
3. Walking and running are great for exercise. You'll find your next clue where birds like to hide.
4. Now that you're outside, take a deep breath. Look for a clue where you find outdoor rest.
5. Don't give up, you're getting so close! Your final clue is found in the room you love most.
6. You did it!! This is your final clue. In the place where we all spend time together, your Easter treasure is waiting for you.
