We are Hiring! Junior – Mid - Senior S/W Developers

S/W Developers in Vietnam (Hanoi)

* Wherever you may be, we are looking for reliable team members who can work together as if you are right beside us :)

Job Description

We are striving to create co-working systems that enable seamless Korea-Vietnam collaboration, focusing on the IT domain. Thanks to our increasing presence in Korea, we're winning multiple IT (web/app) development orders and looking for outstanding full-stack developers who can:

- Team-work with PM/PO and our core team in Korea

- Participate effectively in various projects

Requirements

2-1. Front-end Developer

- At least 2 years (for Junior), 4 years (for Mid) and 7 years (for Senior) of experience as a Front-end Developer or Full Stack Developer

- Strong skill in React.js, React Native, Vue.js, Next.js, Nest.js

- Experienced at least 2 cases of service/project publishing (whether private or commercial)

- Have understanding of GCP cloud

- Experience with Git Management

2-2. Back-end Developer

- At least 2 years (for Junior), 4 years (for Mid) and 7 years (for Senior) as a Back-end Developer or Full Stack Developer

- Strong skill in NodeJS, Java, GCP / AWS, CI/CD, Mysql / MongoDB

- Experienced at least 2 cases of service/project publishing (whether private or commercial)

- Have understanding of GCP cloud

- Experience with Git Management

2-3. Mobile Developer

1. Android Java, Kotlin Developer: Experience of 2 years or more preferred

- Experienced at least 2 cases of service/project publishing (whether private or commercial)
- Have an understanding of GCP cloud
- Experienced with Git

2. IOS Swift Developer: Experience of 2 years or more preferred

- Experienced at least 2 cases of service/project publishing (whether private or commercial)
- Have an understanding of GCP cloud
- Experienced with Git

3. React Native Developer: Experience of 2 years or more preferred

- Experience in Typescript/JavaScript or React Hooks/React, Node JS
- Experience in Android or IOS native mobile app development is a plus.
- Experience in RESTful API
- Experience in source control and issue tracking systems (Git)

Ideally

- Teamwork: the capacity to work as a team (working smart and harmoniously)
- Ownership mindset, dedicated to creating Uptempo Vietnam into a global success story
- Able to speak in English or Korean
- Able to commute to Hanoi office
- Able to travel to Korea and other overseas countries

Salary range

- Junior: 1,000USD ~
- Experience of 3 ~ 4 years: 1,300 – 1,600 USD
- Experience of 5 ~ 7 years: 1,700 – 2,400 USD
- Over 7 years: negotiable (from 2,500 USD)

Benefits

- Team incentive (based on the level of contribution) – Expected: up to 10% of the profit generated
- 13th month salary
- Bonus: Tet bonus, Birthday (2 hours early leave), Other bonuses/gift: 30/4, 1/5, 2/9, etc.

- 12-day annual leave

- Social Insurance / Health Check Support

- Probation period: 2 months (100% salary)

- Provide lunch (included in the salary), dinner (reimbursement)

- Provide parking fee

- Flexible working (details to be discussed during the interview: Start from 8-9 AM, remote work 1 day per week (negotiable, just for Hanoi residents), etc.)

- Release funds for team leisure (work vacation, team trip, etc.)

- Self-Development & Training support (gym, English/Korean study, online courses, books…) ($250 or 5 million VND/year)

- Bottom-up organizational style

Processing

1. Screening CV/Github → Interview 1st round → Coding test → Final round (optional)
