Audio/Visual and Communications seeks volunteers to serve as Social Media Technicians. The primary expectation and task are to learn and follow the procedures to produce the weekly Facebook Livestream and YouTube video upload. Previous knowledge of live streaming and video content loading is preferred but not required, as the volunteer will be trained in the procedures specific to our live stream production and video upload process. For questions, more information, or to apply, email Jerry Murdaugh at finsecretary@fbcfuquay.org.
