

**18DB 600-6000MH 5G Magnetic Antenna Horizontal Polarization
Sucker Antenna with SMA Male Connector and 2M Feeder**

Specification:

- Gain: 4 ~ 18dBi
- SWR: ≤ 1.5

- Connector type: SMA Male connector (diameter: 6mm)
- Cable length: 2M
- Cable material: RG174 Black
- Working temperature: -40°C ~ +80°C
- Impedance: 50ohm
- Polarization method: horizontal polarization
- Frequency: 5G
- Sucker diameter: 30mm
- Antenna height: 24.3cm
- Application: All network communication module, smart home, smart wearable, wireless monitoring, light signal transmission equipment, etc.

Package Included:

- 1 x Antenna
