

SCRIPT FOR THE VIDEO

Praise be Jesus Christ!

This is the primer of **(NAME OF SCHOOL)** for its TWO YEAR TRANSITION PLAN.

Maintaining its thrust of delivering QUALITY BASIC CATHOLIC EDUCATION amidst the pandemic, **(NAME OF SCHOOL)** introduced (name of program). This is the (NERIAN / SHJCSIAN / CARDINAL) method of addressing the challenges of the time.

To ensure the security and well-being of the students and teachers, the **(H.O.P.E. = HOME-BASED PROGRESSIVE E-LEARNING)** became the learning continuity platform. Its specified objectives, goal-directed learning experiences and digital support from ARALINKS, **(H.O.P.E.)** provided learners the opportunity to achieve the expected learning competencies prescribed by the Department of Education in consonance with the **NERIAN** teaching and learning.

The implementation of the school routines like prayers, greetings and wearing of school uniform as well as other revised classroom routines that align with the virtual setting provided the face-to-face classroom atmosphere. This contributes to the holistic development of the learner in the comfort of their own homes.

Teacher training and workshops regarding digital pedagogy and the feedback provided by the parents and students through the **KUMUSTAHAN PROGRAM**, supported the on-going instructional program.

With the nationwide vaccination rollout and the improving situation of the country, the Department of Education prompted schools for its re-opening.

Acknowledging the mandate of DepEd, **(name of school)** created a transition program that will allow both learner and teacher to gradually shift from the virtual to in-person classroom setup.

This paced transition will begin this school year. Students and their parents will be given the opportunity to adjust to the changing normal environment as an after effect of the pandemic.

From the primarily digital platform, the school now introduces the combination of online and in-person learning through the **LEAP PROGRAM (LEARNERS' ENHANCEMENT ACADEMIC PROGRESSION)**. This program allows learners to be socially equipped and technologically prepared as different subject matters and competencies prescribed by the Department of Education are mastered.

In adherence to the Department of Education's prescription of five hours as maximum stay in the school and continued observance of the safety health protocols the weekly schedule distribution of L.E.A.P. for Kinder to Grade 3 under Blended Learning is from Monday to Thursday with two days in-person and two days asynchronous with Friday intended for virtual meetings.

Moreover, Grade 4 to Grade 12 will have two days Hyflex where students will be classified as Roomies (those who attend in-person) and Zoomies (those who attend virtually) and two days Blended with one day in-person and one day asynchronous, and Friday intended for virtual meetings. For fully online learners, the schedule will be from Monday to Friday with synchronous and asynchronous sessions.

The L.E.A.P. Program follows the grading system mandated by the Department of Education, DepEd Order No. 31 series of 2020 or the Interim Guidelines for Assessment and Grading.

To ascertain routine and decorum, students are encouraged to wear appropriate attire during virtual sessions and wear the prescribed uniform during in-person classes.

Since the full implementation of the face-to-face classes will be in November as pronounced by Department of Education, the modalities under the **L.E.A.P.** Program gradually prepare the learners as they transition from virtual to in-person classes taking into account the health safety protocols directed by the DOH and IATF in partnership with volunteer parents in overseeing the implementation of the said protocols also known as the PVP Program (Parents' Volunteer Program).

To continuously provide our students, parents, and stakeholders with what is necessary amid this special time, we want the trust you gave us to never be shaken. That is the primary reason why we continue to be of service to you.

We invite you dear parents to journey with us this school year 2022-2023.

Together let us H.O.P.E and make learning a more enjoyable one as we L.E.A.P in this changing normal.

Thank you and GOD BLESS!
