

# AI Usage Disclosure

## 1. Use of AI Tools

Did you use generative AI tools (e.g., Gemini, ChatGPT, Claude, DeepL, etc.)?

Yes /  No

## 2. Purpose of Use (Check all that apply)

**Ideation:** Topic selection, outlining, or brainstorming assistance

**Literature Review & Synthesis:** Utilizing AI to search, summarize, and synthesize existing research and theoretical frameworks

**Language & Editing:** Grammar correction, paraphrasing, or translation assistance

**Data & Coding:** Generating data analysis code or verifying mathematical calculations

**Other:** (Please specify: \_\_\_\_\_ )

## 3. Detailed Description

Briefly describe the AI tools used, the specific prompts provided, and your process for verifying or revising the AI-generated content to ensure academic integrity. (2-3 sentences)

(Example: I used Gemini to summarize complex papers on neural networks. I cross-referenced the AI-generated summaries with the original sources to ensure accuracy and integrated the key findings into my literature review using my own analytical perspective.)

# Declarations & Signature

## Academic Integrity Pledge

- I certify that I have not plagiarized AI-generated content and have truthfully disclosed any assistance received from AI tools.
- I acknowledge that AI is a supplementary tool and that the core logic, arguments, and conclusions of this paper are the results of my own intellectual efforts.
- HOBY Korea reserves the right to request further evidence if AI usage is not clearly disclosed.
- I understand that any false disclosure or plagiarism of AI-generated content may result in disqualification from the competition and further disciplinary action.
